2. After reading the guidelines and carrying out workshops for children, please, mark to which extend are these strategies important to you when you carry out a workshop?

	not at all 	a little 	a good amount 	very 
Promoting cooperative activities instead of competitive activities to promote peer learning				
Using student's mistakes as an opportunity to learn from, decriminalizing the errors				
Reviewing verbal and non-verbal judgments of students to emphasize positive messages				
Helping students to develop more efficient strategies to carry out a task (e.g. Help them make a problem resolution scheme, help them discriminate between relevant and secondary information...)				
Customizing the activity at the various learning rhythms				
Other -				

Supported by
the Erasmus+ programme
of the European Union

3. Please, answer the following questions.

	not at all 	Partially 	a good amount 	fully 
Did the material made you feel more aware of your role as a workshop leader?				
Did the material made you feel more aware of how you can motivate children/ give feedback during workshop?				
Did the material provide you information about possible ways of how to strengthen children's self-efficacy during workshop?				

**3a. Is there anything that you would change in provided material?
Please write down your suggestions.**
